Follow the steps to clear cache from UNIX account in MAC

- Go to Terminal (Left corner of your screen you will see Search icon (magnifier icon) click on that and type terminal)
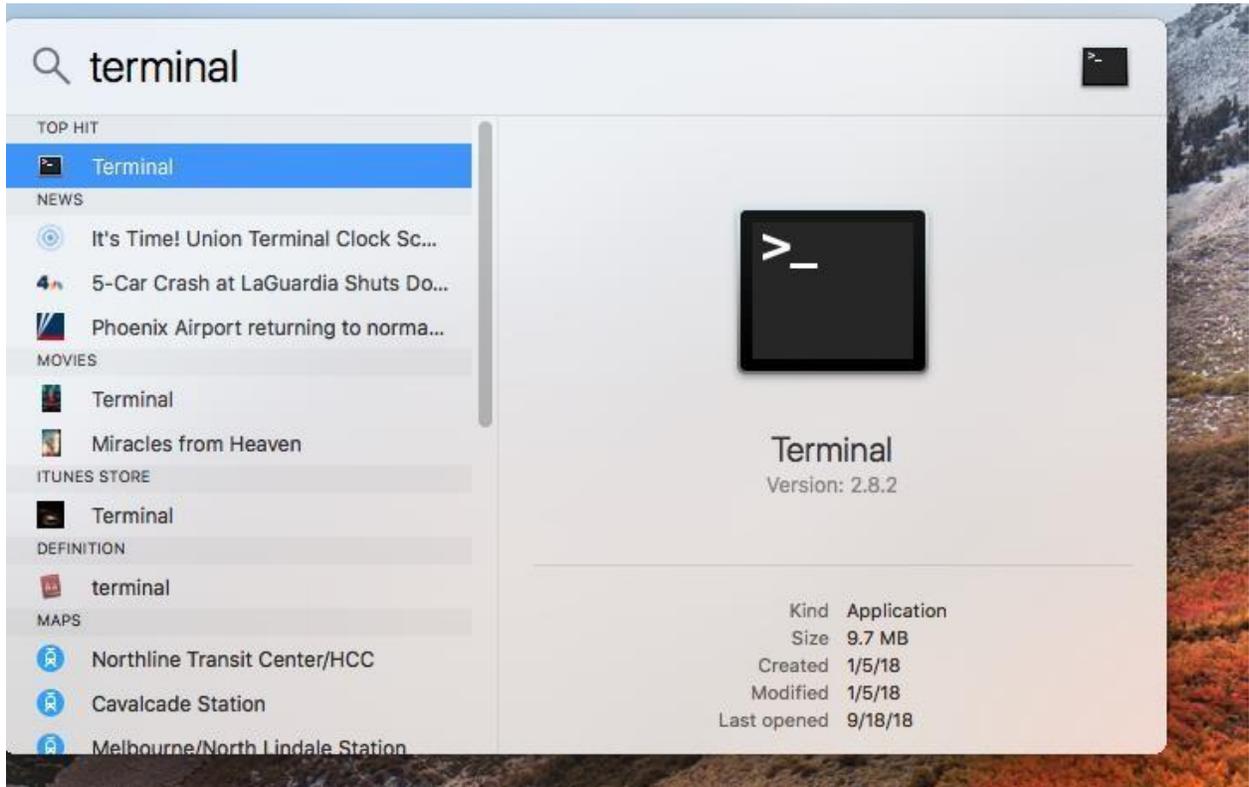

- After opening the terminal enter following command

    ssh unixusername@ruby.rocks.uhcl.edu

    (Note: **In place of unixusername enter UNIX login name.**

    You can find your UNIX username at
    http://sceweb.sce.uhcl.edu/support/?page=unixUsernameLookup)
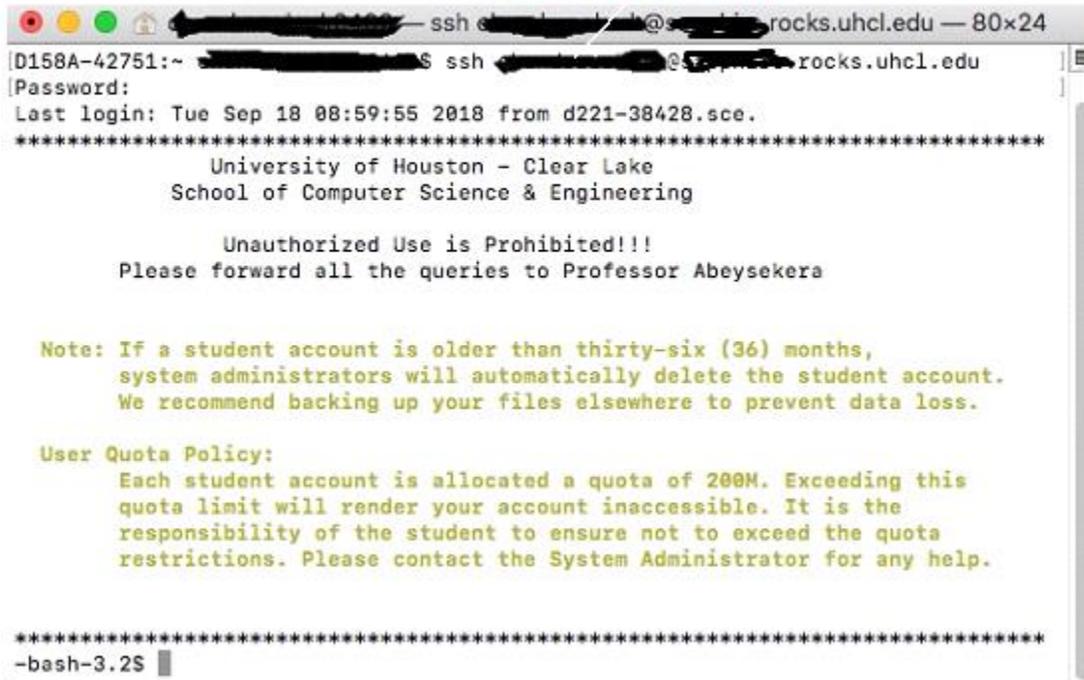

Your Unix username

```
●  ●  ●  ⌂ ▮▮▮▮▮▮▮▮▮▮▮ — ssh ▮▮▮▮▮▮▮▮▮@▮▮▮▮▮ rocks.uhcl.edu — 80×24
[D158A-42751:~ ▮▮▮▮▮▮▮▮▮▮▮$ ssh ▮▮▮▮▮▮▮▮@▮▮▮▮▮ rocks.uhcl.edu        ]▣
[Password:                                                           ]
Last login: Tue Sep 18 08:59:55 2018 from d221-38428.sce.
**************************************************************************
               University of Houston - Clear Lake
               School of Computer Science & Engineering

               Unauthorized Use is Prohibited!!!
        Please forward all the queries to Professor Abeysekera

   Note: If a student account is older than thirty-six (36) months,
         system administrators will automatically delete the student account.
         We recommend backing up your files elsewhere to prevent data loss.

   User Quota Policy:
         Each student account is allocated a quota of 200M. Exceeding this
         quota limit will render your account inaccessible. It is the
         responsibility of the student to ensure not to exceed the quota
         restrictions. Please contact the System Administrator for any help.

**************************************************************************
-bash-3.2$ █
```

- **This will prompt** for RSA authentication .Type yes and press enter

- Enter your Unix password s + 7 digit student id (example : s1234567)

- After successful connection you will see your unixusername name on terminal. ⬚
  Execute the following command:

        rm –rf ~/.cache/*
        rm –rf ~/.mozilla/*

```
-bash-3.2$
-bash-3.2$ rm -rf ~/.cache/*
-bash-3.2$ rm -rf ~/.mozilla/*
-bash-3.2$
-bash-3.2$
```

- Now login to Ubuntu machine in D158 lab

If still you have issues in login after clearing cache please submit your inquires at http://sceweb.sce.uhcl.edu/support/?page=contact
