Mustapha Ahmed-Kaddar. Email: ahmedkaddar@uhcl.edu

Engaged Learning to Promote STEM Graduation, is a grant project funded by the National Science Foundation HSI Program. This project is seeking undergraduate students pursuing STEM degrees to engage in project-sponsored research. Selected students will receive a \$3000 stipend for the semester and justified research supplies can be funded up to \$500 per project. Interested students should create a proposal as specified on the attached project proposal form and return it to the ELPSG Project Director or Graduate Assistant.
