1. Fetch from startup to exit, with Melonee Wise

<https://www.sensethinkact.com/episodes/1-melonee-wise>

In this episode, Audrow Nash speaks with Melonee Wise, former CEO of Fetch Robotics and current VP of Robotics Automation at Zebra Technologies. Melonee speaks about the origin of Fetch Robotics, her experience at Willow Garage, her experience being acquired by Zebra Technologies, challenges in the warehouse setting, on autonomous cars, and on the future of robotics. 2021-08-24 · 1:10:50

12. Accelerating Industrial Workflows with Open Source, with Matt Robinson

<https://www.sensethinkact.com/episodes/12-matt-robinson>

In this episode, Audrow Nash speaks to Matt Robinson, Program Manager for ROS-Industrial Americas at the Southwest Research Institute. ROS Industrial is a group that seeks to help industrial users, for example factories, leverage ROS and its ecosystem. In this conversation, they talk about Matt's background, the need for the ROS-Industrial group and what problems they're working to solve, ROS-Industrial's consortium, and ROS-Industrial's new working group.2022-01-25 · 1:27:32
