|--|------------|
| <b>Module 0 About This Course.....</b>                 | <b>0-1</b> |
| Objectives.....  | 0-2        |
| Intended Audience and Prerequisites.....               | 0-3        |
| Other Sources of Information.....                      | 0-5        |
| Course Outline.....                                    | 0-7        |
| <b>Module 1 Software Engineering Practices.....</b>    | <b>1-1</b> |
| Objectives.....  | 1-2        |
| Software Development Problems .....                    | 1-3        |
| Six Software Engineering Practices.....                | 1-6        |
| Software Engineering Process and Practices .....       | 1-28       |
| Review.....  | 1-32       |
| <b>Module 2 Core Concepts of Software Testing.....</b> | <b>2-1</b> |
| Objectives.....  | 2-2        |
| Definitions .....                                      | 2-3        |
| Test Ideas .....                                       | 2-15       |
| Test Idea Catalogs.....                                | 2-22       |
| Review.....  | 2-28       |
| <b>Module 3 The RUP Test Discipline.....</b>           | <b>3-1</b> |
| Objectives.....  | 3-2        |
| What is the RUP? .....                                 | 3-3        |
| Overview of the Software Lifecycle in RUP.....         | 3-4        |
| Overview of the Building Blocks of RUP.....            | 3-9        |
| Roles in the Test Discipline .....                     | 3-12       |
| Workflow Details in the Test Discipline.....           | 3-17       |
| Review.....  | 3-26       |
| <b>Module 4 Define Evaluation Mission.....</b>         | <b>4-1</b> |
| Agenda.....  | 4-2        |
| Define Evaluation Mission Workflow.....                | 4-4        |
| Define the Mission of the Test Group.....              | 4-6        |
| Define the Goal for Test Documentation.....            | 4-16       |
| Review.....  | 4-24       |
| <b>Module 5 Test and Evaluate.....</b>                 | <b>5-1</b> |
| Agenda.....  | 5-2        |
| Test and Evaluate Workflow: Test .....                 | 5-4        |
| Defining Test Techniques.....                          | 5-6        |
| Individual Techniques.....                             | 5-13       |
| Using Techniques Together.....                         | 5-64       |
| How to Adopt New Techniques/Review.....                | 5-68       |

|  |            |
|--|------------|
| <b>Module 6 Analyze Test Failures.....</b>       | <b>6-1</b> |
| Objectives .....                                 | 6-2        |
| Test and Evaluate Workflow: Evaluate .....       | 6-4        |
| Advocate Repairing the Important Problems.....   | 6-9        |
| Investigate Problems Effectively.....            | 6-14       |
| Write Good Change Requests .....                 | 6-31       |
| <b>Module 7 Achieve Acceptable Mission.....</b>  | <b>7-1</b> |
| Outline .....                                    | 7-2        |
| Achieve Acceptable Mission Workflow.....         | 7-4        |
| Reporting the Status of Testing.....             | 7-6        |
| Review .....                                     | 7-22       |
| <b>Module 8 The RUP Workflow as Context.....</b> | <b>8-1</b> |
| Objectives .....                                 | 8-2        |
| Verify Test Approach .....                       | 8-4        |
| Validate Build Stability.....                    | 8-13       |
| Improve Test Assets .....                        | 8-21       |
| Review .....                                     | 8-32       |
