Module 0 About This Course.....	0-1
Objectives.....	0-2
Intended Audience and Prerequisites.....	0-3
Other Sources of Information.....	0-5
Course Outline.....	0-7
Module 1 Software Engineering Practices.....	1-1
Objectives.....	1-2
Software Development Problems.....	1-3
Six Software Engineering Practices.....	1-6
Software Engineering Process and Practices.....	1-28
Review.....	1-32
Module 2 Core Concepts of Software Testing.....	2-1
Objectives.....	2-2
Definitions.....	2-3
Test Ideas.....	2-15
Test Idea Catalogs.....	2-22
Review.....	2-28
Module 3 The RUP Test Discipline.....	3-1
Objectives.....	3-2
What is the RUP?.....	3-3
Overview of the Software Lifecycle in RUP.....	3-4
Overview of the Building Blocks of RUP.....	3-9
Roles in the Test Discipline.....	3-12
Workflow Details in the Test Discipline.....	3-17
Review.....	3-26
Module 4 Define Evaluation Mission.....	4-1
Agenda.....	4-2
Define Evaluation Mission Workflow.....	4-4
Define the Mission of the Test Group.....	4-6
Define the Goal for Test Documentation.....	4-16
Review.....	4-24
Module 5 Test and Evaluate.....	5-1
Agenda.....	5-2
Test and Evaluate Workflow: Test.....	5-4
Defining Test Techniques.....	5-6
Individual Techniques.....	5-13
Using Techniques Together.....	5-64
How to Adopt New Techniques/Review.....	5-68

Module 6 Analyze Test Failures.....	6-1
Objectives.....	6-2
Test and Evaluate Workflow: Evaluate.....	6-4
Advocate Repairing the Important Problems.....	6-9
Investigate Problems Effectively.....	6-14
Write Good Change Requests.....	6-31
 Module 7 Achieve Acceptable Mission.....	 7-1
Outline	7-2
Achieve Acceptable Mission Workflow.....	7-4
Reporting the Status of Testing.....	7-6
Review	7-22
 Module 8 The RUP Workflow as Context.....	 8-1
Objectives.....	8-2
Verify Test Approach	8-4
Validate Build Stability.....	8-13
Improve Test Assets	8-21
Review	8-32
